A community guide
to keeping
Spokane Valley
graffiti-free.

What is graffiti?

Graffiti is any type of unauthorized marking on public or private property. It may include words, figures, designs or other inscriptions on any type of property that can be seen by the public.

It may be applied using paint, ink, dye or other substances that can be used to mark property.

Isn't graffiti illegal?

Yes. Those who are responsible for applying graffiti can be convicted of malicious mischief, a crime that is punishable by a fine up to \$5000 and/or up to one year in jail.

And, because we are determined to defeat graffiti's negative effects, it has been added to Spokane Valley's list of prohibited nuisances* so that our community can be graffiti-free.

*SVMC 7.05.040

Why be graffiti-free?

A scourge in communities across the nation, graffiti mars public and private property. It can lower property value and discourage investment in the community.

Graffiti negatively affects people's feelings of safety, and can encourage more vandalism and gang activity.

Uncontrolled graffiti projects a poor image of our community, and worst of all, destroys community pride.
